

Hyde County CTP Committee Meeting

March 28, 2011 - 5 PM

Hyde County Administrative Office

30 Oyster Creek Rd.

Swan Quarter, NC 27885

Attendees:

Lauren Nicholls

Steve Lambert

Scott Walston

Michael Adams

Darrick Lee

Kris Noble

Janet Russ

A. COMMITTEE UPDATE

Scott Walston gave an update of the meeting on Ocracoke. Lauren Nicholls gave a brief update of the next planned CTP meetings.

B. DISCUSSION OF ROADWAYS

Lauren Nicholls asked the committee to review the roads. Janet brought up getting boat access in several areas including: Creekside, Intracoastal Waterway, Alligator River, and have a deep water port for fishing boats. This is important to the county for both emergency vehicles as well as economic development. There are currently not very many close access points to the Intracoastal Waterway. Janet also suggested the canal heading south from Tyrrell County along 94 be opened up for boating.

C. PUBLIC SURVEYS

Lauren talked about adding a ferry question to the survey similar to the one that Tyrrell County added to their survey. Another suggestion was adding a safety question about roads. Janet asked about park and ride lots for transit and DOT said it was something we will be looking into for the plan.

The group asked to reword the access to water question on the survey.

D. VISION AND GOALS STATEMENTS

The committee suggested we add the #2 goal from the Currituck CTP, Identify and prioritize improvements that would enhance safety and quality of life through multi-modal CTP implementation. Lauren suggested we add a safety element to the vision and goals. Kris suggested we add an element to the airport in the vision and goal.

E. NEXT MEETING

We have planned to have our next meeting at Ocracoke on May 16.

F. ADJOURN
